11th Annual Sporting Clay Classic

Join the NTX Chapter for our 11th Annual Sporting Clay Classic! Come for a little friendly competition and "shotgun golf," stay for the refreshments and camaraderie! Invite your friends, family, customers, ringers... all are welcome. Funds raised will support NTX Chapter scholarships.

Date: Friday, May 9, 2025
Time: Registration/Breakfast 8 AM, Shooting 9 AM, Lunch/Awards 11 AM
Location: Elm Fork Shooting Sports, 10751 Luna Road, Dallas, Texas
Deadline: Registration closes on May 6, 2025

See the attached registration form for pricing and more information.

Sponsorships Available!

President's Message

Ben Koehler

Spring is here! I hope everyone is off to a great start to 2025! We have some exciting events that are planned in the near future. The ICRI Spring Convention is in Austin, this year and is coming up in April. It looks like there will be a lot of fellow ICRI Members traveling from around the nation to attend. After looking at the agenda for the event, it appears to have some great presentations and seminars throughout all three days. Also, our annual Sporting Clay Classic will be held on May 9th at Elm Fork Shooting Club in Dallas. We will be having our annual Golf Tournament in October and will be having Membership Meetings in June / September / November. Please, let us know if you have any interest or questions in regards to these upcoming events.

On February 19th, we had our ICRI Field Applicator Training Program. Despite the freezing temperatures, this program was a great success! We were fortunate to have a full class, and all the attendees were engaged, and they appeared to have learned a lot about concrete repair. Thanks to RTC for allowing us to utilize their shop for this event and thanks to everyone that was able to help set this up! Also, on February 27th, Charlie Lerman with NCFI gave a presentation on Urethane Grout

Injectons. He gave a great presentation that was very informative. We also had a full class with 35+ attendees. Thanks to Terracon for hosting this event and to everyone that was able to attend!

Lastly, we would like to place an emphasis on recruiting new members to the North Texas Chapter of ICRI in 2025. We are looking at setting up a Social Event / Happy Hour in June in hopes of recruiting new members. Please keep an eye out for updates. If there are any questions about becoming a member or ICRI in general, please reach out to myself or one of the North Texas Board Members and we would be happy to assist.

Sincerely,

Ben Koehler

2025 NTX Chapter President

NTX Holds Repair Applicator Training Event

On a blustery, frigid day in Carrollton, Texas with snowflakes in the air, the North Texas Chapter held its second, full day Repair Applicator Training event for contractor crew members from four different companies. NTX members Stephen Grelle from YA Engineering Services and Mark LeMay (semi-retired) provided instruction on:

- The make-up of reinforced concrete
- Typical modes of concrete deterioration
- Identifying areas of unsound concrete
- Repair materials and application methods
- Proper surface preparation and moisture conditioning
- Proper mixing, placing, finishing and curing of repair materials

Instructional presentations were alternated with hands-on “workstations”, where attendees performed acoustic sounding on concrete slabs, chipped out areas of unsound concrete, prepared the areas in accordance with ICRI Guidelines, and mixed, placed and finished hand-applied repair materials in horizontal, vertical and overhead applications. Special thanks go to NTX ICRI Company Member, RTC Restoration and Glass (Dan Andres, Karl Guderian, Michael Tolson, Chad Ellis and Mariano Rodriguez) for hosting the event at their Carrollton facility and providing lunch, and to local Subject Matter Experts, Ben Koehler, Patrick Jorski and Eddie DeHaro for their assistance at the workstations. Also thanks to event sponsors Polycoat, Sunbelt, Sika Corporation, and Euclid Chemical.

Concrete Surface Repair Technician (CSRT) Program

A Self-Guided Training Program
Focused On Concrete Surface Repair

*"The ICRI CSRT program has assembled a vast amount of information...
an individual can learn best practices that typically take five to ten years to accumulate.
Whether you are new to concrete repair or experienced...this program has something for everyone."*

Jacob Borgerson, CSRT-Grade 1, Wiss, Janney, Elstner Associates, Inc.

Unique Grouting Projects at February NTX Meeting

The North Texas Chapter welcomed a large crowd at Terracon's training room in Dallas to hear about unique chemical grouting projects from Charlie "The Grout Geek" Lerman. With over 25 years of hands-on experience in the industry, Charlie has been involved with a myriad of unique challenges solving moisture intrusion issues in a wide variety of concrete structures. Attendees were provided with a glimpse of several projects where several factors had to be considered to determine the correct approach to solve a moisture intrusion issue. Numerous manholes, dams and tunnels have all been jobsites where Charlie has had to solve leak issues through cracks, joints, and unconsolidated areas of concrete. He provided thoughtful insights on how to determine the best methodologies to use under various jobsite conditions. When cracks are too numerous to be injected economical, Charlie is a proponent of "curtain grouting" which can be used to form a waterproof barrier on the positive side (i.e., outside) of a concrete structure. This is accomplished by drilling through the concrete structure on a grid pattern to pump the polyurethane material to the exterior surface of the concrete structure.

Get Surface Repair Certified!

*Why should my company have
ICRI-certified Concrete Surface Repair
Technicians (CSRT) on staff?*

The ACI 562-19 concrete repair code commentary states that CSRTs are qualified to perform testing and inspections required by the Design Professional. Look for this requirement to become more prevalent in the coming years as ACI 562-19 is becoming more widely recognized. Plus, better quality control and quality assurance start with better training!

Please note: dinner, bar, and pinball sponsors will have logo displayed on 6 screens throughout the venue. Size of logo based on sponsorship amount.

International Concrete Repair Institute North Texas (NTX) Chapter Scholarship Application & Guidelines, 2025

Overview & Program Guidelines

Objective: To encourage participation in the concrete and/or concrete repair industries. Scholarship funding is provided by ICRI NTX.

Amount: At least \$1,000 for tuition, fees, and books (more than one scholarship may be awarded)

Eligibility:¹ High school seniors and college undergraduate students that are pursuing a certificate or degree from a college, university, or trade school. Graduate students are not eligible for the scholarship at this time.

Apply: Submit the following:
Completed application form
Cover Letter
Transcripts²
Test scores³

To: ICRI North Texas Chapter
Julie Bolding, Scholarship Committee Chair
12655 N. Central Expy, Suite 720
Dallas, TX 75243 469-782-9753
julie.bolding@salasobrien.com

Due Date: Friday, May 30, 2025

Review: Completed applications will be reviewed by the Chapter Scholarship Committee. Appointed by the Chapter President, the Chapter Scholarship Committee Chair selects two committee members, who are approved by the Board of Directors. Applicant interviews may be requested by the Scholarship Committee. Committee members' family members are excluded from the opportunity to apply, but all others are eligible to apply regardless of membership in ICRI.

Decision: Award recipient(s) will be notified via letter on or about July 1, 2025. An announcement of the award recipient(s) will be made during an ICRI NTX Chapter meeting.

Award: Funding will be awarded by July 7, 2025 and will be placed in an account under the award recipient's name at his or her college, university or trade school. If no school has been selected or if student ID number and school financial aid mailing information has not been provided as of this date, funding will be held until a school is selected. Award will only be sent directly to college, university or trade school, not to award recipient.

Follow-up: Award recipients will be expected to attend a NTX Chapter meeting (at no cost to the recipient) and to provide a follow-up letter (or e-mail) at the completion of the semester for which funding is allocated including a description of the coursework completed and grades earned.

¹ While preference will be given to full-time students pursuing a career in concrete restoration, concrete strengthening methods, concrete repair material research or related fields, students from all disciplines are invited to apply. Past recipients may reapply.

² Applies to high school senior and college undergraduate applicants, unofficial transcripts are acceptable

³ Applies to high school senior applicants only, ACT or SAT scores are acceptable

**International Concrete Repair Institute North Texas (NTX) Chapter
Scholarship Application & Guidelines, 2025**

Have you received an ICRI NTX scholarship in the past? _____ When? _____

If you are working, how long have you worked in a field associated with ICRI?

>10 years _____ 5 to 9 years _____ <5 years _____

If you are a high school senior, what high school do you attend?

Supplemental: List your community, civic, or professional organization affiliations (include leadership):

(use additional
sheets if necessary)

List your extracurricular activities and interests: _____

Cover Letter: In addition to transcripts and test scores (for high school senior applicants), please include a 1-2 page cover letter with your application. The cover letter should focus on your career interests and goals, strongest personal characteristics, and why you have selected your current course of study. Steps you envision taking to achieve your goals as well as a statement about how the receipt of this scholarship could assist in that process are also of interest to the Committee.

Signature of Applicant

Date

Printed Name

Signature of Parent/Guardian (if applicant is under 18)

Date

The information provided in this application is complete and accurate to the best of my knowledge. I understand that scholarships are awarded at the discretion of the Scholarship Committee and, by signing above, I give the Committee permission to contact my school for verification of the information I have provided. I agree that if I am awarded a scholarship I will notify ICRI NTX immediately if my educational program is interrupted or changed in any manner that might jeopardize its intent and that I may be asked to return the scholarship. Additionally, I understand that if I am awarded a scholarship, funds will be paid to my college, university, or trade school of attendance and placed in an account under my name.
